This poll was conducted between September 1-7, 2022 among a sample of 2,650 voters in AZ, CO, GA, NV, and NH (referenced as battleground voters throughout). The interviews were conducted online and the data were weighted to approximate a target sample of voters in these states using two stage weighting: The first stage weights were based on gender by age, educational attainment, race, and marital status and the second stage was based on relative state population. Results from the full survey have a margin of error of +/- 2%. 
Controlling inflation (42%) is the top issue battleground voters want to see their Senator prioritize, while regulating technology companies was only selected by 1% of voters. Among Democratic battleground voters, standing up for abortion rights (40%) is the top issue.
