VOTERS’ SENTIMENT TOWARDS REGULATING AMAZON
Polling Presentation
MAY 2023
This poll was conducted between March 4-6, 2023 among a sample of 2,008 registered voters. Registered voters are referred to as voters throughout the analysis for simplicity. The interviews were conducted online and the data were weighted to approximate a target sample of registered voters based on gender by age, educational attainment, race, marital status, home ownership, race by educational attainment, 2020 presidential vote, and region. Results from the full survey have a margin of error of plus or minus 2 percentage points.
Two-thirds (66%) of voters use Amazon at least on a weekly basis or more, including 24% who use Amazon on a daily basis.

How frequently, if at all, do you use the following online platforms or apps, if at all?

Methodology: This poll was conducted between March 4-6, 2023 among a sample of 2,008 registered voters. The interviews were conducted online and the data were weighted to approximate a target sample of registered voters based on gender by age, educational attainment, race, marital status, home ownership, race by educational attainment, 2020 presidential vote, and region. Results from the full survey have a margin of error of plus or minus 2 percentage points.
Thinking about technology-related issues, a majority (58%) of voters want the Biden administration focusing on protecting consumers from scams/malware in 2023, while only 8% of voters selected imposing restrictions on Amazon Prime or Amazon Basics products as a priority.

Thinking about technology-related priorities, which TWO issues would you like to see the Biden administration focus on in 2023?

- Protecting consumers from scams/malware: 58% selected, 42% not selected
- Enacting regulations to protect consumer privacy online: 45% selected, 55% not selected
- Expanding broadband access to get people more connected: 28% selected, 72% not selected
- Creating more high-tech jobs: 25% selected, 75% not selected
- Banning online targeted advertising: 17% selected, 83% not selected
- Eliminating online platforms’ liability protections for user-generated content: 13% selected, 87% not selected
- Imposing new restrictions on Amazon Prime or Amazon Basics products: 8% selected, 92% not selected
- Other, please specify: 6% selected, 94% not selected

Methodology: This poll was conducted between March 4-6, 2023 among a sample of 2,008 registered voters. The interviews were conducted online and the data were weighted to approximate a target sample of registered voters based on gender by age, educational attainment, race, marital status, home ownership, race by educational attainment, 2020 presidential vote, and region. Results from the full survey have a margin of error of plus or minus 2 percentage points.
Across Democrats, independents, and Republican voters, imposing new restrictions on Amazon Prime and Amazon Basics products was least likely to be selected as a technology-related priority the Biden administration should focus on in 2023.

Results from the full survey have a margin of error of plus or minus 2 percentage points.
A plurality (43%) of Amazon users say they would make fewer purchases on Amazon if they learned products they purchased from Amazon were being sold somewhere else on the Internet for less, while 36% say it would not impact the number of purchases they make on Amazon.

If you learned that products you purchased on Amazon were being sold somewhere else on the Internet for less, how would you respond?

*Amazon users, N=1,838 | *Amazon user = use Amazon at least once a month or less often

- 43% I would make fewer purchases on Amazon
- 36% I would make about the same number of purchases on Amazon
- 10% I would make more purchases on Amazon
- 11% Don't know/Unsure

Methodology: This poll was conducted between March 4-6, 2023 among a sample of 2,008 registered voters. The interviews were conducted online and the data were weighted to approximate a target sample of registered voters based on gender by age, educational attainment, race, marital status, home ownership, race by educational attainment, 2020 presidential vote, and region. Results from the full survey have a margin of error of plus or minus 2 percentage points.
After learning more, two-thirds (66%) of voters think Amazon should be able to feature the best deal possible in its search results even if it means all sellers are not promoted equally.

Some say Amazon should be allowed to feature the best deal possible in its search results for products, which may mean promoting certain sellers over others. Others say government regulations are needed to prevent Amazon from promoting certain sellers over others, regardless of which seller has the best deal possible. In your opinion, should Amazon be able to feature the best deal possible in its search results even if that means all sellers are not promoted equally?

- Yes: 66%
- No: 14%
- Don't know: 21%

The interviews were conducted online and the data were weighted to approximate a target sample of registered voters based on gender by age, educational attainment, race, marital status, home ownership, race by educational attainment, 2020 presidential vote, and region. Results from the full survey have a margin of error of plus or minus 2 percentage points.
Among Amazon Prime members female voters (50%) are more likely than male voters (37%) to say two-day shipping is the most important reason they subscribe to Amazon Prime. On the other hand, male voters are more likely to say prime video (26%) is the most important reason they subscribe to Amazon Prime.

What is the most important reason you subscribe to Amazon Prime?

Among Amazon Prime members female voters (50%) are more likely than male voters (37%) to say two-day shipping is the most important reason they subscribe to Amazon Prime. On the other hand, male voters are more likely to say prime video (26%) is the most important reason they subscribe to Amazon Prime.
Four-in-five (82%) Amazon Prime members say they choose Prime-eligible products over non-Prime products most or every time when making a purchase on Amazon.

How frequently, if ever, do you choose Prime-eligible products over non-Prime products when making a purchase on Amazon?

*Amazon Prime members, N=1,294 | *Amazon Prime member = Self reported Amazon Prime member
After learning more about the Amazon marketplace, a majority (59%) of Amazon Prime members (N=1,294)* think Amazon should be able to require that sellers ship Prime products from Amazon warehouses in order to maintain the two-day delivery window, even if sellers would prefer to ship it themselves.

*Asked only of respondents who said they are currently an Amazon Prime member] Amazon Prime products ship and arrive within two days of purchase because Amazon requires those products to be shipped from Amazon warehouses. Some have proposed that Amazon sellers be allowed to ship those products through other means, even though Amazon could not guarantee Prime orders would arrive on time. After learning more, which of the following is closest to your opinion?

*Amazon Prime Members, N=1,294 | *Amazon Prime Member = Self Reported Amazon Prime Member

- **59%**
  - Amazon should be able to require that sellers ship Prime products from Amazon warehouses in order to maintain the two-day delivery window, even if sellers would prefer to ship it themselves

- **27%**
  - Amazon should allow sellers to ship Prime products themselves through other means, even if it means packages may not arrive within the two-day window

- **14%**
  - Don't know/No opinion

Results from the full survey have a margin of error of plus or minus 2 percentage points.
Amazon Prime members (N=1,294)* are more likely to oppose (46%) rather than support (23%) the federal government regulating the Amazon Prime program, which could include banning or changing some features.

[Asked only of respondents who said they are currently an Amazon Prime member] Do you support or oppose the federal government regulating the Amazon Prime program, which could include banning or changing some features?

*AMAZON PRIME MEMBERS, N= 1,294 | *AMAZON PRIME MEMBER = SELF REPORTED AMAZON PRIME MEMBER
A majority of voters (65%) say Amazon Prime benefits consumers rather than hurting competitors (19%).

*Which of the following statements comes closest to your view?

- **65%**
  - Amazon Prime benefits consumers because of the value and convenience it provides, and consumers always have the freedom to choose other retailers.

- **19%**
  - Amazon Prime hurts competing retailers like Walmart and Target by making it too easy for consumers to stay on Amazon.

- **16%**
  - Don't know/No opinion

*Question was split sampled, n=668

Methodology: This poll was conducted between March 4-6, 2023 among a sample of 2,008 registered voters.
