CHAMBER OF PROGRESS

2024 Election: National and Battleground Exit Poll

Polling by **Morning Consult on behalf of**

Chamber of Progress

NOVEMBER 2024

National Survey: This poll was conducted between November 6-13, 2024, among a sample of 2,000 Registered Voters. The interviews were conducted online, and the data were weighted to approximate a target sample of Registered Voters based on gender by age, educational attainment, race, marital status, home ownership, race by educational attainment, 2020 presidential vote, and region. Results from the full survey have a margin of error of plus or minus 2 percentage points.

Battleground States Surveys: This poll was conducted between November 6-15, among a sample of 4,405 Registered Voters in Arizona, Georgia, Michigan, Nevada, North Carolina, Pennsylvania, and Wisconsin. The interviews were conducted online, and the data were weighted to approximate a target sample of swing state registered voters based on gender by age, educational attainment, race, marital status, home ownership, race by educational attainment, 2020 presidential vote, and state. Results from the full survey have a margin of error of plus or minus 1 percentage points.

Controlling inflation and protecting our borders were the issues most important to Trump voters. Harris voters also valued controlling inflation, but unlike Trump voters, Harris voters valued protecting reproductive freedom and improving healthcare affordability over border security.

In deciding who to vote for in the recent presidential election, which **TWO** issues were the most important to you?

	Registered Voters	Harris Voters	Trump Voters
Controlling inflation and strengthening the economy	49%	37%	61%
Protecting our borders	31%	9%	56%
Making health care more affordable	24%	34%	14%
Protecting reproductive freedom	21%	38%	5%
Cutting taxes	19%	15%	21%
Making housing more affordable	19%	20%	15%
Combating climate change	12%	21%	4%
Maintaining global security	8%	7%	9%
Improving public schools	7%	7%	6%
Other, please specify	4%	6%	3%
Building and repairing roads and bridges	3%	3%	2%
Regulating technology companies	2%	3%	2%

MORNING CONSULT   *Results are from the national survey among 2000 U.S. registered voters*

High costs of goods and services is considered the biggest problem facing the economy among voters nationally and in battleground states.

Among the following choices, what do you believe is the bigger problem facing the economy?

● High costs of goods and services   ● Corporate power   ● Economic threat from China   ● Don't know

National

	High costs of goods and services	Corporate power	Economic threat from China	Don't know
Registered Voters	65%	15%	13%	7%
Harris Voters	58%	24%	10%	7%
Trump Voters	74%	6%	16%	

Battleground States

	High costs of goods and services	Corporate power	Economic threat from China	Don't know
Registered Voters	67%	19%	10%	
Harris Voters	57%	32%	7%	
Trump Voters	77%	7%	13%	

M MORNING CONSULT®

Results are from the national survey among 2000 U.S. registered voters | Results are from the aggregate responses from the seven battleground states (PA, MI, WI, NC, GA, NV, AZ) among 4,405 registered voters

Majorities of voters in battleground states view Donald Trump's economic policies positively (51%). A plurality of battleground voters also view Barack Obama's economic policies favorably (50%). Though Harris' economic policies are viewed more favorably than Biden's, voters view them both more negatively than Obama or Trump

Do you believe the following political leaders' economic policies are good for the economy?

Very good for the economy | Somewhat good for the economy | Neither good nor bad for the economy | Somewhat bad for the economy | Very bad for the economy | Don't know/ No opinion

Policy	Very good	Somewhat good	Neither	Somewhat bad	Very bad
Donald Trump's Economic Policies	36%	15%	8%	8%	29%
Barack Obama's Economic Policies	32%	18%	12%	10%	24%
Kamala Harris' Economic Policies	26%	17%	9%	7%	36%
Joe Biden's Economic Policies	18%	17%	12%	11%	39%

MORNING CONSULT *Results are from the aggregate responses from the seven battleground states (PA, MI, WI, NC, GA, NV, AZ) among 4,405 registered voters*

Democrats in battleground states show notably less confidence in Biden's economic policies (71%) compared to those of Obama (88%) and Harris (85%).

Do you believe the following political leaders' economic policies are good for the economy?

% Total good for the economy	Battleground States			
	Registered Voters	Democrats	Independents	Republicans
Donald Trump's Economic Policies	51%	15%	45%	92%
Barack Obama's Economic Policies	50%	88%	44%	15%
Kamala Harris' Economic Policies	43%	85%	36%	7%
Joe Biden's Economic Policies	35%	71%	25%	6%

Results are from the national survey among 2000 U.S. registered voters | Results are from the aggregate responses from the seven battleground states (PA, MI, WI, NC, GA, NV, AZ) among 4,405 registered voters

While most battleground voters believe both Obama's and Trump's economic policies are aligned with the wants of Americans, fewer voters believe Harris' policies to be aligned (47%). Biden's policies are both seen as unaligned by a majority of Americans (54%).

Do you believe the following political leaders' economic policies are aligned with the wants of a majority of Americans?

Legend: ● Very aligned ● Somewhat aligned ● Don't know/ No opinion ● Somewhat unaligned ● Very unaligned

	Very aligned	Somewhat aligned	Don't know/ No opinion	Somewhat unaligned	Very unaligned
Donald Trump	37%	18%	5%	10%	30%

MORNING CONSULT® *Results are from the national survey among 2000 U.S. registered voters*

While a majority of voters believed each economic policy tested described either Biden, Harris, or both, more voters believed in Harris' approach, particularly in regards to bringing costs down, looking out for consumers and workers, and valuing the perspectives of business leaders.

The following statements concerning a lawmaker's approach to crafting economic policy. For each, say whether you think the statement is true of President Biden, Vice President Harris, or neither of them.

● President Biden   ● Vice President Harris   ● Both of them   ● Neither of them

Statement	President Biden	Vice President Harris	Both of them	Neither of them
Values the perspective of labor unions	9%	14%	38%	39%
Prioritizes bringing unemployment down	9%	12%	38%	41%
Values the perspective of business leaders	8%	14%	34%	45%
Looks out for consumers	8%	16%	31%	45%
Looks out for businesses	8%	13%	33%	46%
Looks out for workers	8%	15%	35%	42%
Understands what businesses are going through	7%	16%	33%	44%
Understands what workers are going through	6%	16%	33%	45%
Wants to strengthen the economy	6%	16%	38%	40%
Wants to reshape the economy	6%	20%	35%	39%
Prioritizes bringing costs down	6%	17%	32%	46%

Results are from the national survey among 2000 U.S. registered voters
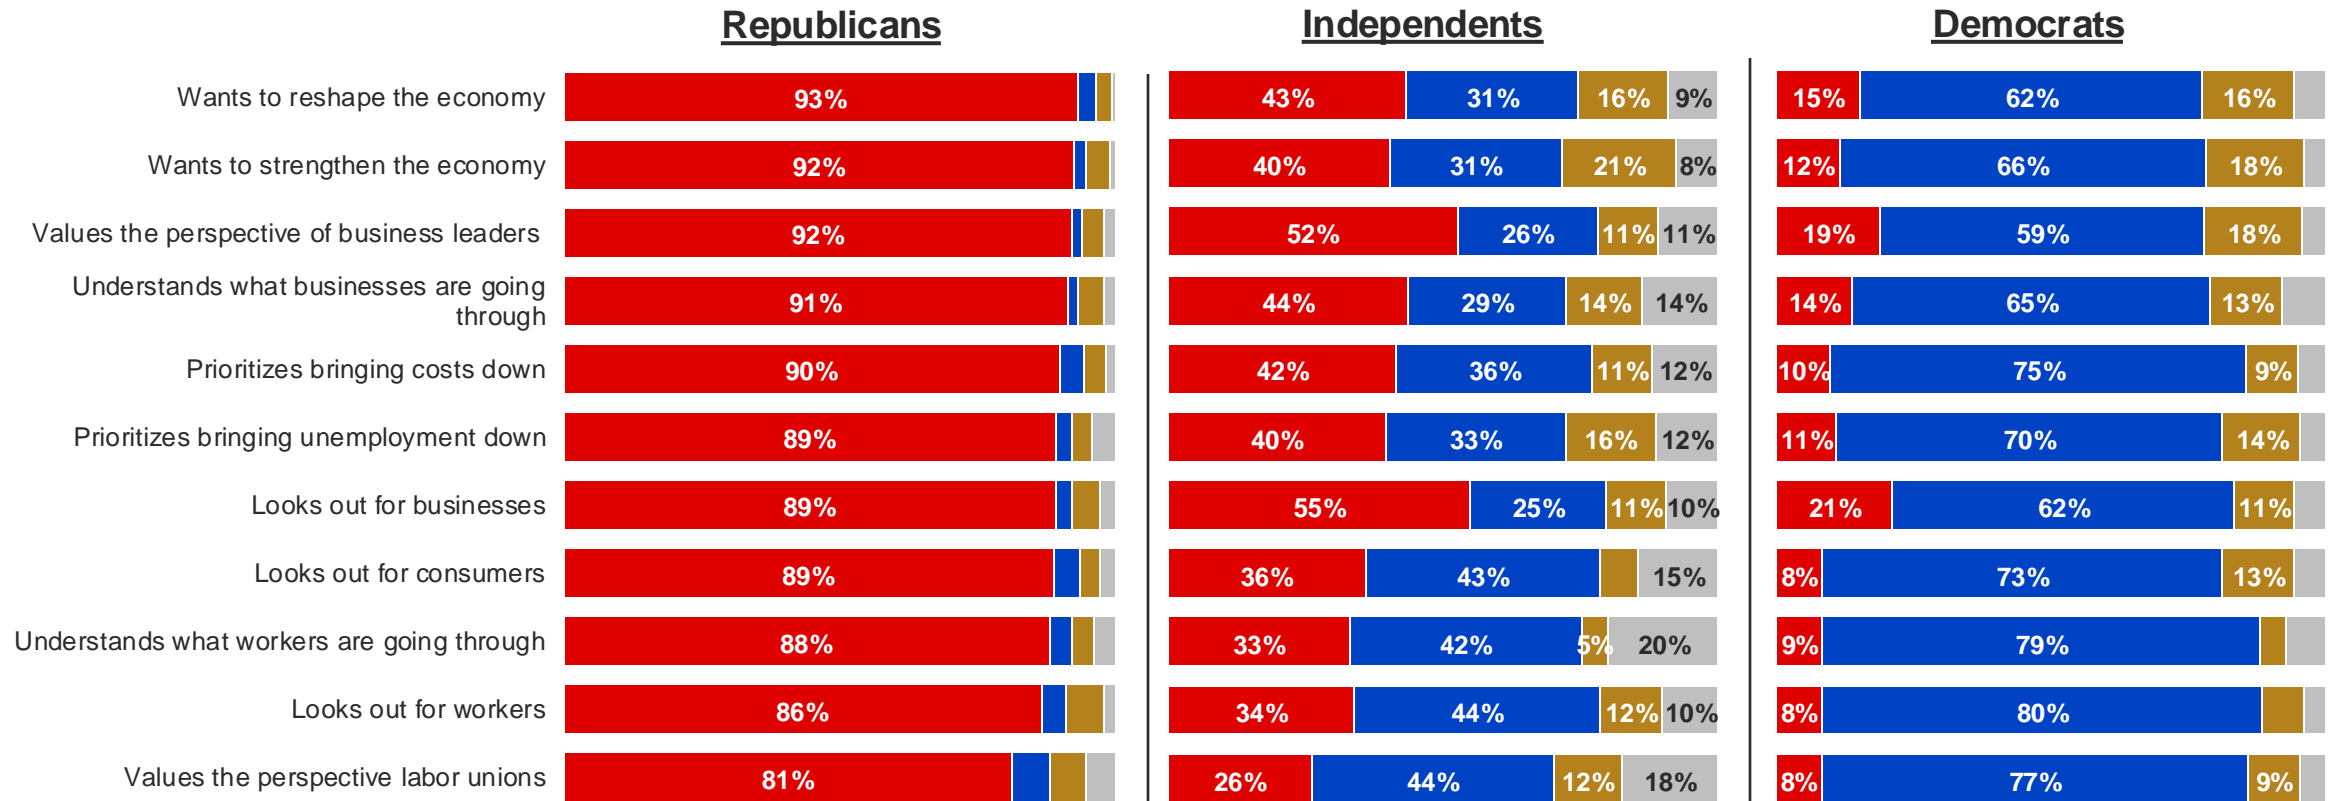

When it comes to candidates' approaches to economic policy, fewer than one-in-ten Republicans believe each policy approach applied to Harris, but up to three-in-ten Democrats felt the approaches described Trump. Pluralities of independents felt Trump–more than Harris–values businesses and prioritizes bringing costs down, though they felt Harris was more likely to look out for workers and consumers than compared to Trump.

The following statements concerning a lawmaker's approach to crafting economic policy. For each, say whether you think the statement is true of Donald Trump, Kamala Harris, both of them, or neither of them?
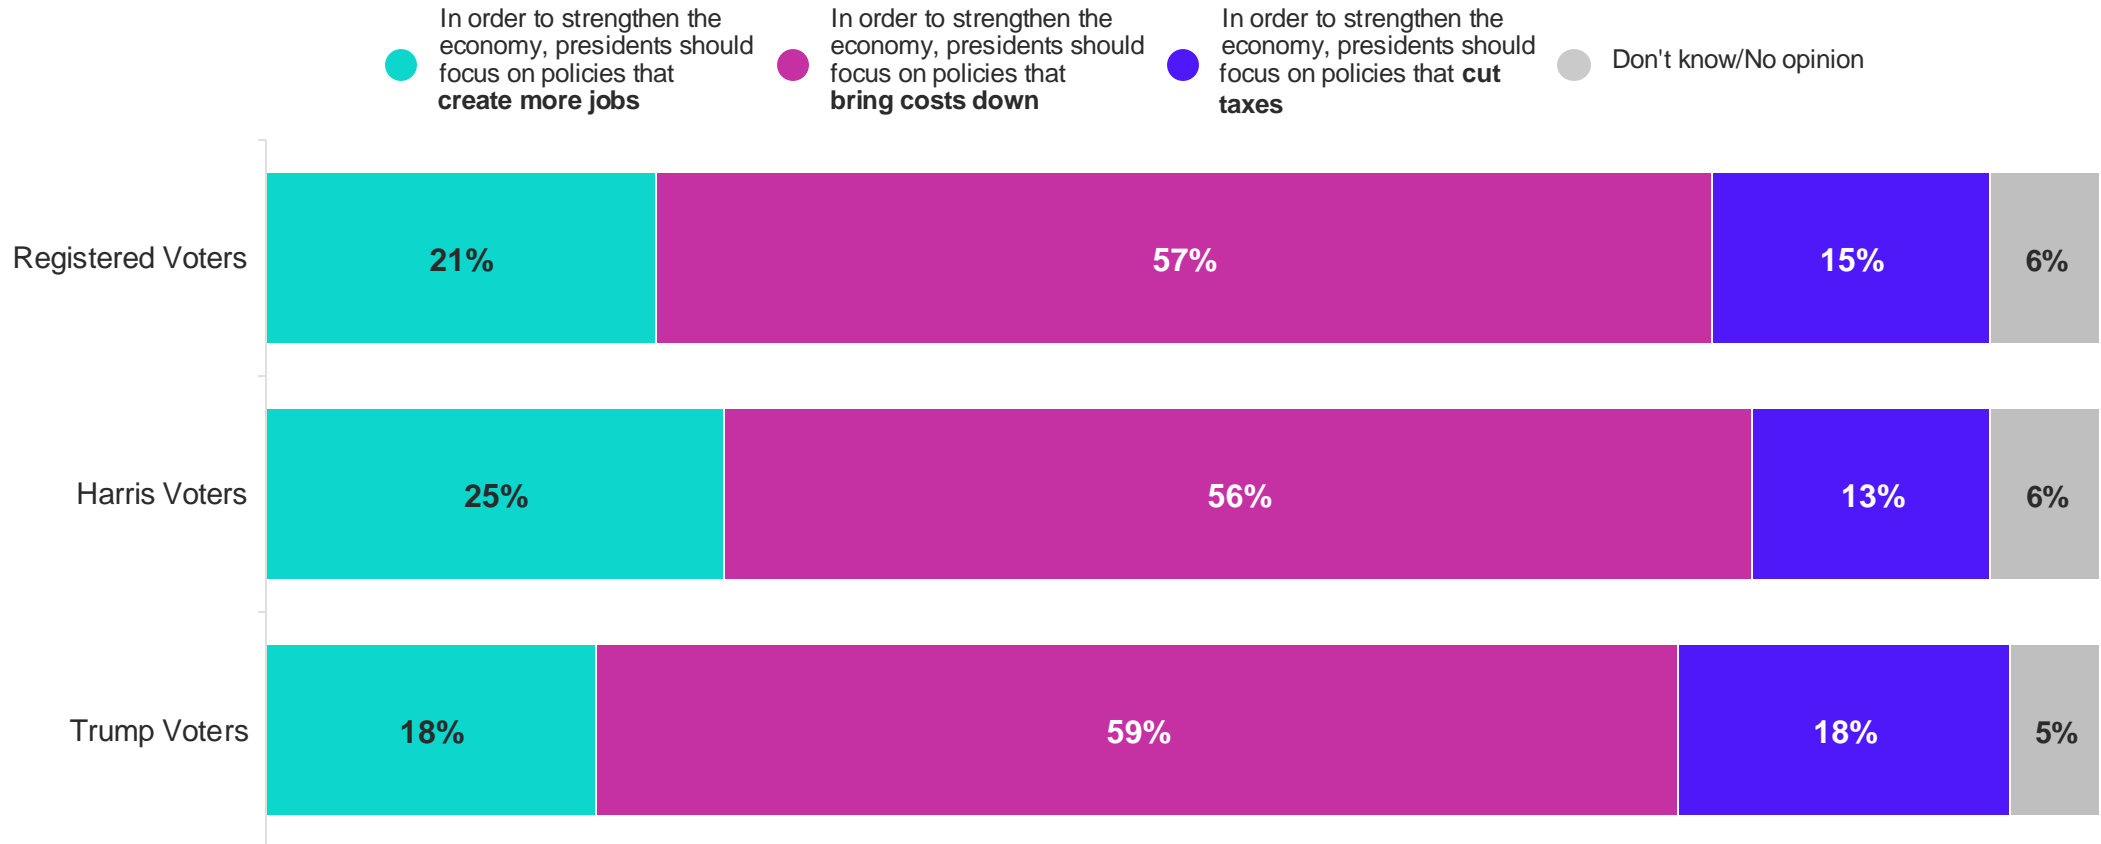

● Donald Trump   ● Kamala Harris   ● Both of them   ○ Neither of them

	Republicans	Independents	Democrats
Wants to reshape the economy	Trump 93%	Trump 43% / Harris 31% / Both 16% / Neither 9%	Trump 15% / Harris 62% / Both 16%

One-third of voters want the next Trump administration to enact technology regulations that protect customers while not interfering with the apps' services.
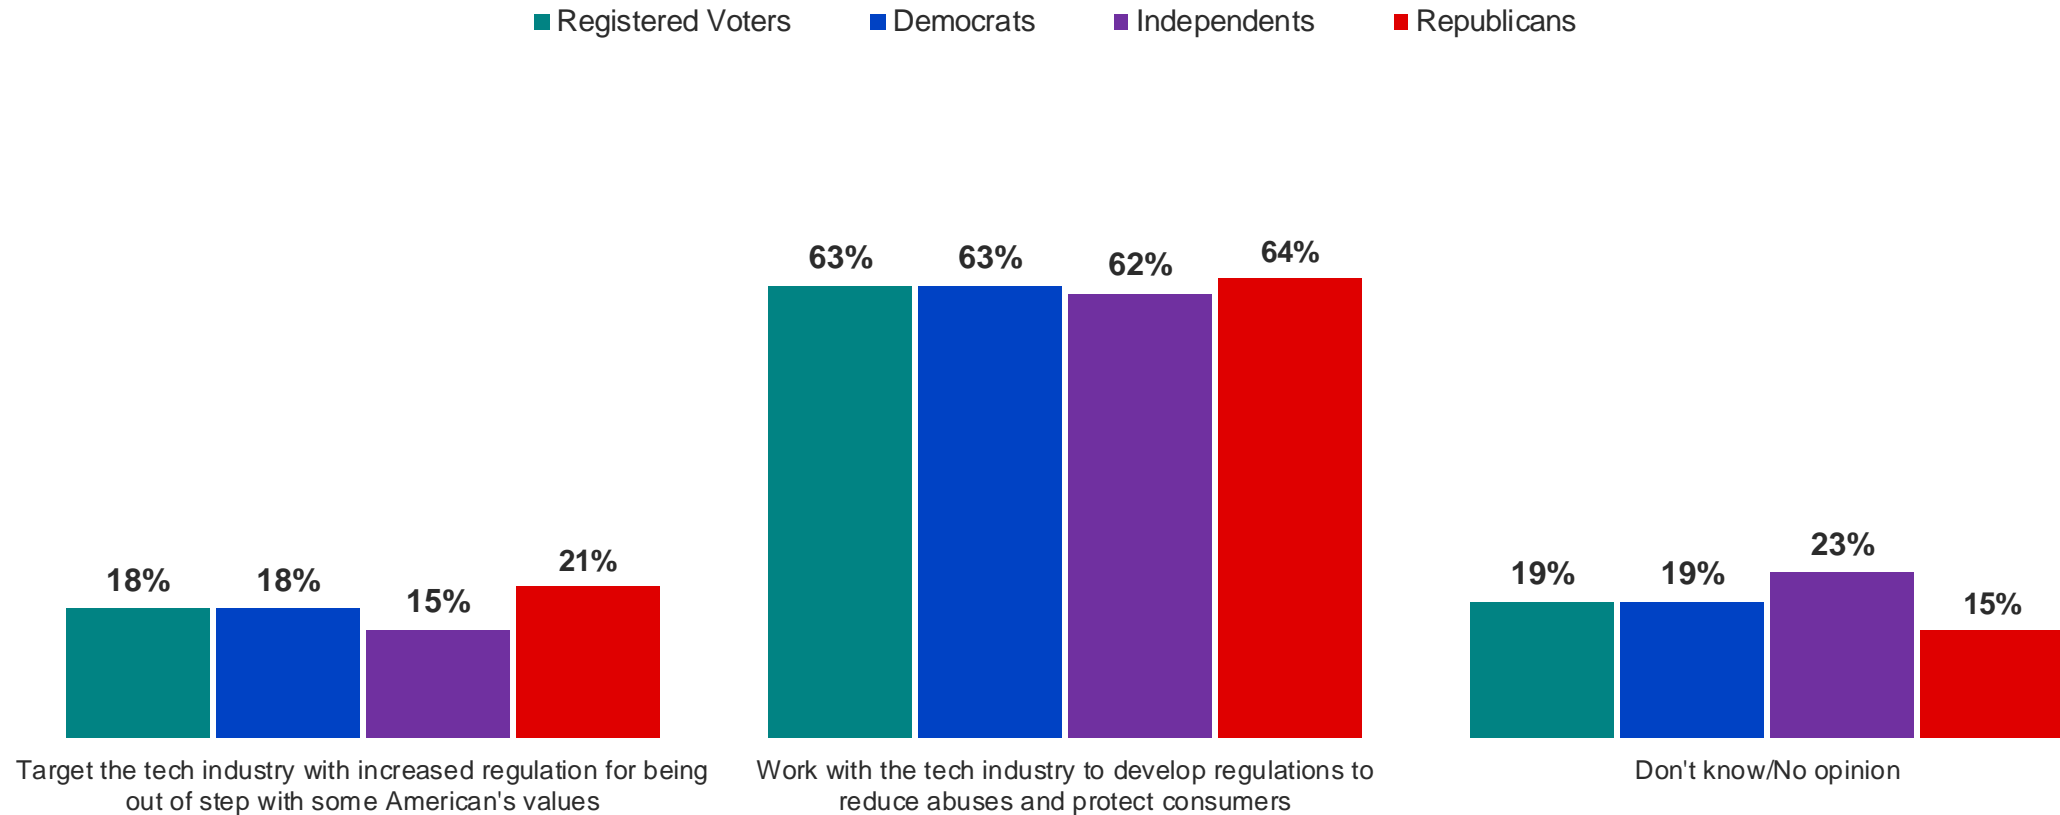

When it comes to how the next Trump administration should approach technology issues next year, which of the following is closest to your opinion?

Don't know/No opinion

20%

The next Trump administration should take **aggressive action to regulate** technology apps and services.

11%

The next Trump administration should leave the technology industry to operate **without any new regulations**

11%

34%

The next Trump administration should enact technology regulations to **protect consumers**, while making sure that technology apps and services **don't lose useful functions**

24%

The next Trump administration should focus on bringing **more tech jobs** and opportunity to people and communities instead of additional technology regulation

Results are from the national survey among 2000 U.S. registered voters

Majorities of voters across party lines agree Congress should work with the tech industry to develop regulations to reduce abuses and protect consumers.
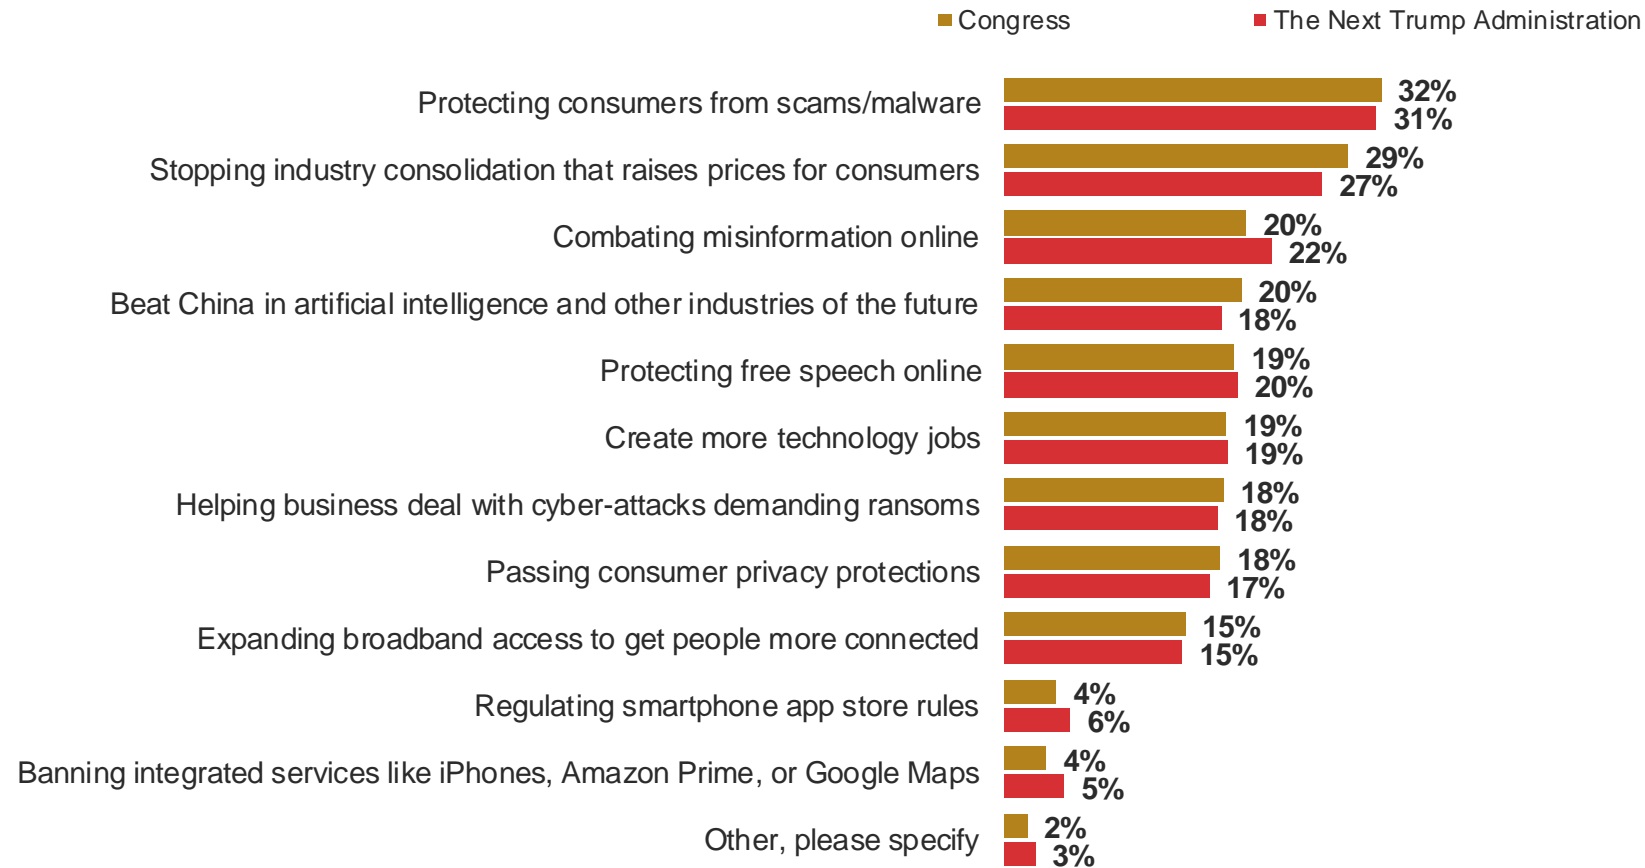

When it comes to the incoming Congress, how would you like to see lawmakers approach regulation of the tech industry?

■ Registered Voters   ■ Democrats   ■ Independents   ■ Republicans

Target the tech industry with increased regulation for being out of step with some American's values: 18%, 18%, 15%, 21%

Work with the tech industry to develop regulations to reduce abuses and protect consumers: 63%, 63%, 62%, 64%

Don't know/No opinion: 19%, 19%, 23%, 15%

MORNING CONSULT   *Results are from the national survey among 2000 U.S. registered voters*

Voters want both Congress and the next Trump administration to (1) prioritize protecting consumers from scams and malware and (2) stopping consolidation that raises consumer costs. Voters lowest priority is banning integrated services like iPhones, Amazon Prime, or Google Maps.

Thinking about technology-related priorities, which TWO issues would you like to see Congress/ the next Trump administration focus on in the next four years?

■ Congress   ■ The Next Trump Administration

Priority	Congress	Trump Administration
Protecting consumers from scams/malware	32%	31%
Stopping industry consolidation that raises prices for consumers	29%	27%
Combating misinformation online	20%	22%
Beat China in artificial intelligence and other industries of the future	20%	18%
Protecting free speech online	19%	20%
Create more technology jobs	19%	19%
Helping business deal with cyber-attacks demanding ransoms	18%	18%
Passing consumer privacy protections	18%	17%
Expanding broadband access to get people more connected	15%	15%
Regulating smartphone app store rules	4%	6%
Banning integrated services like iPhones, Amazon Prime, or Google Maps	4%	5%
Other, please specify	2%	3%

Voters across party lines want Congress and the next Trump administration to prioritize similar technology issues, with protecting consumers from scams and malware ranked highest.

**Definition of autonomous vehicles provided to respondents:**

As you may know, autonomous vehicles, also known as self-driving cars, driverless cars, or robo-cars, are vehicles that are capable of sensing their environment and operating with little to no human input. Recent evidence suggests that autonomous vehicles are safer than human drivers in many conditions and could decrease accidents on the road.

Majorities of voters across party lines would support proposals in Congress to create a national framework for the safe use of autonomous vehicles.

Currently, regulations regarding the use of autonomous vehicles are inconsistent across the country. Would you support or oppose proposals in Congress to create a national framework that promotes the safe use of autonomous vehicles?

Election Priorities & Economic Policies

Approaching Tech Regulation

Moderating Online Content & Social Media Usage

Autonomous Vehicles & Gig Work

**Cryptocurrency & Artificial Intelligence**

Though nearly a third of voters do not have an opinion, a plurality of voters are more likely to support federal regulations of cryptocurrency that increase opportunities for financial growth than efforts to limit the growth of cryptocurrency–even if that means some people experience financial losses as a result.

When it comes to federal regulation of cryptocurrency, which comes closest to your view?

■ Registered Voters   ■ Harris Voters   ■ Trump Voters

28% **30%** **26%**   **44%** **45%** **45%**   **29%** **26%** **29%**

The federal government should discourage the growth of cryptocurrency and prevent some people from experiencing financial losses, even if that means people without access to traditional banking methods have fewer opportunities for financial growth.

The federal government should regulate cryptocurrency so that people without access to traditional banking methods have more opportunities for financial growth, even if that means some people may experience financial losses.

Don't know/No opinion

MORNING CONSULT®   *Results are from the national survey among 2000 U.S. registered voters*

There is bipartisan support for the United States to lead in the development of AI, over competitors like China or Europe.

Based on what you know, do you think it is important for the United States to lead in the development of artificial intelligence, instead of competitors like China or Europe?

● Yes   ● No   ● Don't know/No opinion

	Yes	No	Don't know/No opinion
